Other Charges

- **Relocations: \$99 Fee & recontract of your existing term**
- **Pre-Delivery Withdrawal Fee: \$150**
This applies in the event an order is withdrawn after the order is submitted but not yet activated on the NTU, regardless of contract term. Any hardware device provided free of charge must also be returned to MyOwn Tel in an 'as new' condition at your own cost, or the full retail cost of the device will be charged in addition.
- **New Development Charge: \$300**
This charge may apply if your premises is identified by our upstream carrier as being within the site boundary of a new development (including, but not limited to, new dwellings, lots under reconstruction, and new buildings requiring a new mailing address).

Pricing and Promotions

All prices listed herein include GST and do not factor any promotional discounts we offer from time to time.

Early Termination

Should your service be cancelled for any reason within the contract period, your Early Termination Fee (ETF) will be the minimum monthly charge, multiplied by the months remaining in your contract.

OptiComm Specific Charges

The following charges may also be applicable for services connected to the OptiComm network. We will advise you before connecting your service, should these apply.

- **OptiComm Deployment Fee**
OptiComm may charge a fee (payable directly to OptiComm before you commence signup with us) for deploying network infrastructure to certain premises requiring a new connection (including, but not limited to, new dwellings, lots under reconstruction, and new buildings requiring a new mailing address), which is determined on a case-by-case basis.

NBNCo Specific Charges

The following charges may also be applicable for services connected to the nbn™ network. We will advise you before connecting your service, should these apply.

- **Subsequent Installation Fee: \$299**
This charge may be applicable where there is insufficient infrastructure available (e.g. a spare telephone line to be sacrificed for use with services connecting via FTTN, FTTB or FTTC), or when there is any subsequent NBN Co installation at a premises after the initial standard or non-standard installation.

OTHER INFORMATION

Fibre Internet Speeds

Plan/speed tier configuration changes attract a charge of \$0 and may be requested once per month if moving to a higher speed if in contract. Speed downgrades attract a charge of \$69. Speed downgrades within the Minimum Term are not permitted.

The speed tier on which your service is configured indicates the maximum possible speed (Mbps) you can receive off-peak. Any typical busy period speeds mentioned indicate speeds you can expect during busy periods (7pm-11pm). They are not guaranteed minimum speeds.

Actual speeds may vary due to a number of factors such as, but not limited to, the destination of the host computer or server you are accessing, the global Internet links between us and Internet destinations, the network that connects from your location to other parts of the country, the performance of your home network, your equipment and software on your computer. Transmission overheads and network congestion may also impact speeds during peak usage times.

Some speed tiers may be unavailable for configuration at certain locations. While you can search for your address on our website to see speed tier availability, this will be confirmed prior to connection to ensure we provide only the best customer experience.

Equipment

You may use your own modem/router provided it is compatible with our service. This means, however, that you will be responsible for the configuration of the device. Ask us for information on approved or recommended networking devices for purchase.

Connection Timeframes

Once we've accepted your application, we'll try to connect your service on the date you ask for, however, this might not always be possible. Due to the complex nature of this service, we will aim to connect your service within two to five working days.

Billing

We will bill you in advance for the minimum monthly charge and features. Your first bill will include charges for part of the month from when you took up your plan until the end of that billing cycle, as well as the minimum monthly charge in advance for the next billing cycle. Bills will be emailed as part of our commitment to protecting the environment.
